Oral Cancer Facts

- Oral cancer kills one person every hour, 24 hours a day, in the United States
- Approximately 30,000 people were diagnosed with oral cancer in 2006 in the United States
- Nearly half of oral cancer patients die within 5 years of diagnosis
- Oral cancer is 80-90% survivable if diagnosed early
- Only 35% of oral cancers are diagnosed in the early stages

Oral Cancer Screening

- Performed by an Alexian Brothers Medical Center Dentist
- Painless and quick
- Uses the latest diagnostic technology to help identify malignant and pre-malignant changes that are not easily visualized
- Recommended for ages 16 years and above—anyone under the age of 18 years must be accompanied by a parent or guardian

Registration is required.
